

TILE PATTERN 1

The blue part of the design is an eighth of a tile. If you're drawing freehand, draw this on to one half of your square, then transfer the design to the other half following the instructions in the video!

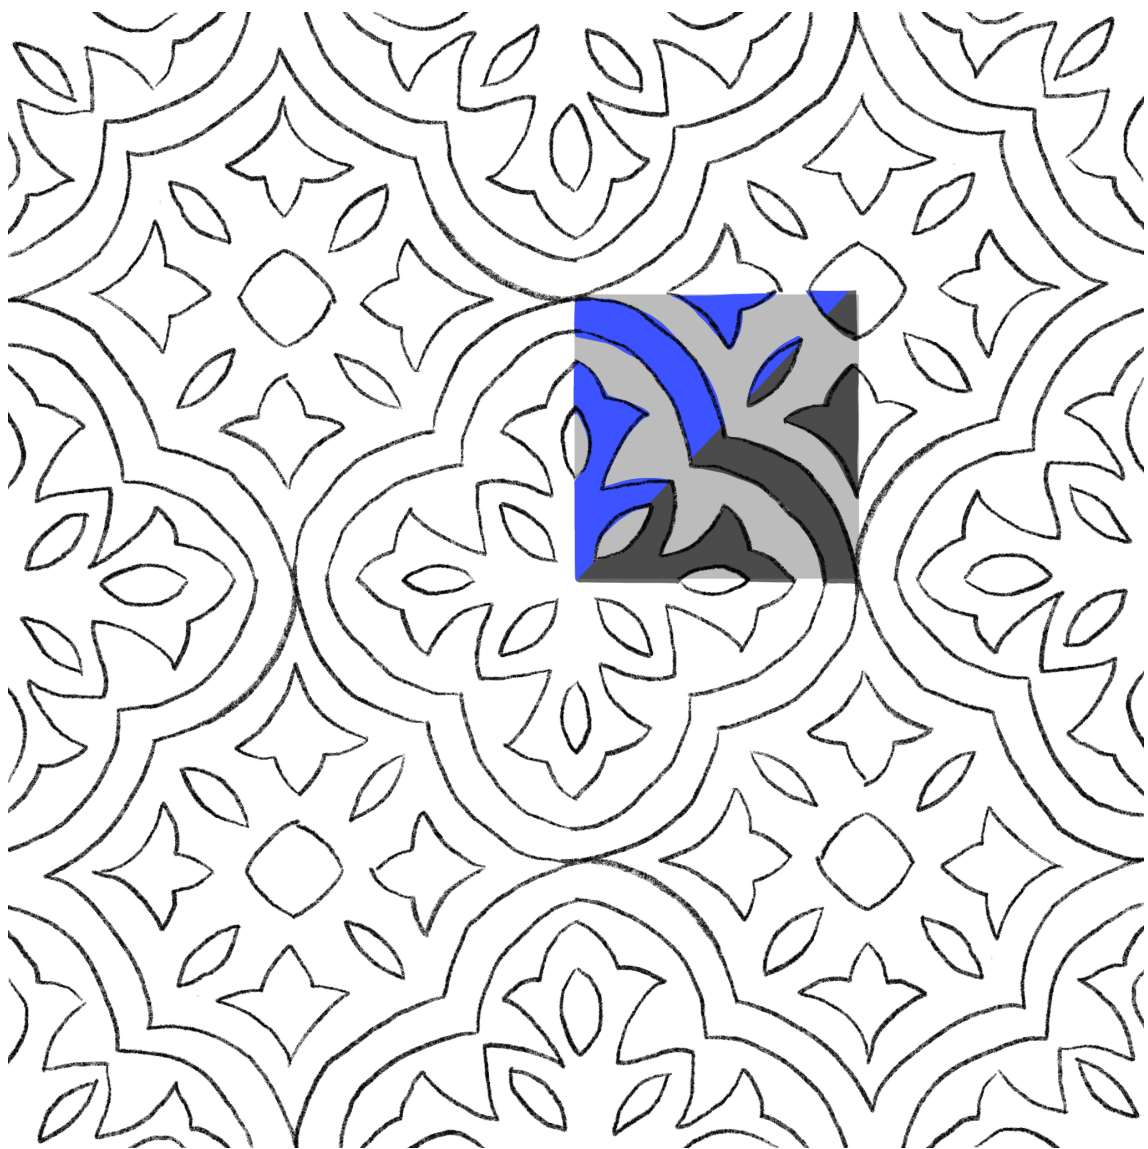

Otherwise, you can print this page out, cut your block to the size of the dark square, draw over the blue and grey shapes with pencil, and press your block onto the page to transfer the pencil lines onto your block.

TILE PATTERN 2

The blue part of the design is an eighth of a tile. If you're drawing freehand, draw this on to one half of your square, then transfer the design to the other half following the instructions in the video!

Otherwise, you can print this page out, cut your block to the size of the dark square, draw over the blue and grey shapes with pencil, and press your block onto the page to transfer the pencil lines onto your block.

TILE PATTERN 3

The blue part of the design is an eighth of a tile. If you're drawing freehand, draw this on to one half of your square, then transfer the design to the other half following the instructions in the video!

Otherwise, you can print this page out, cut your block to the size of the dark square, draw over the blue and grey shapes with pencil, and press your block onto the page to transfer the pencil lines onto your block.
